

ISODARCO – 2018 WINTER COURSE

ISODARCO – 2018 WINTER COURSE

OUTLINE OF SERGIO DUARTE PRESENTATION

Session 6 – Tuesday, 8 January 2019

Linking Proliferation and Arms Control: Understanding Regional Nuclear Orders

Duarte intends to make a Power Point presentation of about 50 minutes, leaving the remaining 30 minutes or so for comments and questions.

- 1. Introduction: a general historical description of multilateral disarmament and arms control efforts at the United Nations and previous world forums, including recent proposals by SGs Ban Ki-Moon and Antonio Guterres.**
- 2. The regional dimension of disarmament as defined by United Nations decisions and documents.**
- 3. The concept of Nuclear Weapon Free Zone (UNGA Resolution 3472B and SSOD I.**
- 4. Regional and bilateral arms control (except NWFZs)**
- 5. Proliferation of nuclear weapons**
- 6. Other weapons of mass destruction**
- 7. Verification instruments**
- 8. Nuclear weapon free zones: description of the 5 existing treaties (Tlatelolco, Rarotonga, Bangkok, Pelindaba and Semipalatinsk) plus Mongolia and areas free of NW as well as proposals for new zones.**
- 9. Efforts at prohibiting nuclear weapons**
- 10. Instruments aimed at preventing nuclear terrorism**
- 11. Importance of disarmament education**
- 12. Prospects for the future**
